RE: *Feindt v. United States*; Case No. 22-00397-LEK-KJM
Rule 37.1 General Discovery

Dear Judge Mansfield:

After careful consideration, our clients have collectively decided to proceed towards the bellwether trial without delay. They understand the risks involved with limited discovery but have concluded that the risks of delay outweigh the risks of staying the course.

Thank you for the opportunity to take the time to review this decision with our partners and clients. There were serious considerations to discuss.

We look forward to working with the government towards trial and resolution.
